

Nauvoo Legion  
to  
Utah Militia

- (4) Prescribes a controlled substance to treat a condition that he is not licensed to treat.
- (5) Fails to deliver to the Division a revoked, suspended or limited license.
- (6) Fails to maintain effective controls against drug diversion.
- (7) Is unable to account for shortages of controlled substances in his inventory.

3709. Records.

- A. Records of purchases, distributions, dispensings and administration of controlled substances shall be kept according to state and Federal law. Practitioners shall keep records apart from patient records of each drug purchased, the amount purchased and the amount administered to each patient.
- B. Any licensee who experiences any shortage or theft of controlled substances shall immediately file the appropriate forms with the Drug Enforcement Administration and the Division. They shall also report the incident to their local law enforcement agency.

3710. Prescriptions.

- A. Practitioners may not prescribe more than one controlled substance on a prescription form.
- B. If a practitioner fails to document his intentions relative to refills of controlled substances in schedules III through V on a prescription form, it shall mean no refills are authorized.
- C. Any refill authorized by a practitioner for controlled substances after the expiration of the original prescription shall be considered a new prescription and require a new prescription form.
- D. Each prescription for a controlled substance and the number of refills authorized shall be documented in the patient records by the prescribing practitioner.
